

### **Chemical Sample Packing & Shipment Coordination**

DGM is known for their incomparable packing and repouring services for hazardous and non-hazardous shipments. DGM deals with all the complicated legislation and governmental requirements while offering special tailored-made solutions, reducing distribution cost, delays, and increasing shipment efficiency. DGM's services are an added value to any business by getting each job done quickly and within compliance.

DGM provides our customers with expert solutions to meet all your regulatory requirements by preparing all hazardous and non-hazardous shipments in accordance with the modal specific dangerous goods regulations (49-CFR, ICAO-T.I., IATA, IMDG Code). Each shipment is inspected based on MSDS information provided by the shipper. DGM's DG Specialists then pack the shipment according to modal specific regulations.

### **Chemical Sample Process:**

- Material (Product) Receipt
- Packing List
- On Hand Reports
- Itemized Tagging
- Product Security
- Customized Sample Packaging
