# DGM NEW YORK "THE DGM DIFFERENCE"

**How Dangerous Goods Management is different than all of the competition**

## THE DIFFERENCE

### 1. Dangerous Goods Declarations (shipping papers for ground, ocean, and air)

When DGM issues a dangerous goods declaration/ shipping papers, the documents are issued as "DGM New York on behalf of (the shipper)". This is how DGM takes full responsibilities, and liability for correctly preparing our customer's shipments according to all applicable dangerous goods regulations. **None of our competitors do this.** They let the liability, and possible fines fall upon the shipper, and freight forwarder.

### 2. DGM's 17.5 million euro liability insurance policy

Every office in the DGM network is covered by a comprehensive 17.5 million euro liability policy. This extends to cover our customer's shipments, should there be a dangerous goods incident. This is why DGM issues all dangerous goods declarations as "DGM New York on behalf of (the shipper)". **There is no competitor that offers insurance on shipments to protect customers in the same capacity as Dangerous Goods Management.** That is the DGM difference.

### 3. DGM Network

Dangerous Goods Management currently has 59 offices in 29 countries on 6 continents and is growing constantly. DGM is the largest dangerous goods compliance network in the world.

DGM offices:

- North & South America: New York (New Jersey), Chicago, Atlanta, Houston, Argentina, Mexico, and more
- Europe: Poland, United Kingdom, Norway, Luxembourg, Italy, and more
- Africa: Egypt, Saudi Arabia, Kenya, South Africa, and more
- Asia & Oceania: China, Hong Kong, Japan, Malaysia, Thailand, Singapore, Indonesia, and more
